

Weekly Report

7/29

My update:

Last week:

- Write a test for DAC.
- Read docs about FreeRTOS.
- Finish a simple multithreading module in FreeRTOS.
- Finish learning git.

This week:

- Change optimization level definitions.
- Continue studying FreeRTOS and SPI module.

(optional)

- Try to write a func entrance of spi-master.

7/22

- Self introduction;
- Read docs about ADC/DAC
- New staff training.
- Get familiar with the basic instructions and hotkeys in dev environment.
